To Whom It May Concern:

On July 23rd, The Village Independent Democrats approved the following Resolution.

The Village Independent Democrats recognizes that lever voting machines have served our voters well for many years, and are capable of serving us well for many more decades.

They are inexpensive to maintain and use, and parts are easily available to maintain them.

We believe that our lever voting machines, supplemented by accessible ballot marking devices that all New York counties have purchased and fielded, meet all federal requirements.

We urge our elected officials at the city, state and federal level to take all possible actions to enable New York State to keep our lever voting machines.

Sincerely,

William Stricklin
President
